01 *Profile*

Data and analytics leader with 9+ years designing and delivering analytics, reporting and data platform solutions for Australia's largest mining and resources clients. I work end to end, from data pipelines and modelling through to reporting, governance and the operating models that keep analytics capability sustainable. My foundation spans Power BI, SQL, Python and modern platforms including Snowflake, Azure SQL and Microsoft Fabric. I currently lead EY's national Risk Analytics practice across Oceania, with concurrent product work on a Snowflake Native App.

02 *Experience*

Mar 2022 - Present

Director, Risk Analytics · *EY*

I lead EY's national Risk Analytics practice across Oceania, grown from 3 to 16, owning practice strategy, commercial performance, capability and the delivery of our largest analytics, payroll compliance and continuous controls engagements in the mining and resources sector.

- Built Power BI reporting and payroll monitoring solutions for Tier 1 mining clients, giving leaders ongoing compliance visibility across the hire to retire process.
- Developed payroll monitoring backed by SAP ECP, SuccessFactors and Pronto, integrated through Snowflake, improving how workforce compliance risks are surfaced and managed.
- Led 20+ superannuation compliance reviews, identifying material exposure and guiding remediation alongside the ATO and Fair Work Commission.
- Implemented continuous controls monitoring across payroll, master data, leave and rostering, strengthening data integrity and audit readiness.
- Established digital analytics capability for a global internal audit program spanning 100+ countries and 50+ audits a year, setting strategy, standardising methods and deploying scalable tooling.
- Designed and delivered analytics on Azure SQL with Power BI, embedding data governance and validated findings processes.
- Built a modular risk and controls analytics platform on Azure SQL using a layered ref / active / archive design, reusable across multiple client engagements.
- Designed reusable data models and ETL pipelines integrating SAP, Snowflake and Power BI, cutting per engagement build effort and improving data quality.
- Grew the Oceania practice from 3 to 16; designed the operating model, built a structured training program and led the AI adoption and responsible use program.

KEY CLIENTS Tier 1 miners and global resources, energy and engineering groups

Jun 2025 - Present

Senior Account Executive · *Unified Honey*

Founding contributor to a Snowflake Native App in the Snowflake Startup Accelerator, focused on governed, agent ready data products that bridge ERP systems with modern data platforms. I work across product strategy, go to market and data governance framework design.

- Lead go to market strategy, product positioning, sales collateral and competitive analysis for a Snowflake Native App targeting mining sector data governance.
- Contribute to data governance framework design including lineage, quality rules and semantic definitions for agent ready data products.
- Bridge ERP systems (SAP, Pronto, Oracle) with modern data platforms, drawing on mining industry domain expertise.

Feb 2020 - Mar 2022

Manager, People Advisory Services · *EY*

Led the Perth data analytics and automation team within People Advisory, delivering payroll, remuneration, superannuation and employment tax analytics for major Australian clients.

- Managed a 5 year workforce analytics partnership with a major healthcare provider covering rostering compliance, overtime, leave and superannuation.
- Built analytics on SAP HCM, SuccessFactors, Kronos and RITEQ, analysing workforce patterns including turnover, churn and rostering efficiency.
- Delivered payroll compliance reviews across ASX listed clients, engaging stakeholders across HR, Payroll, Legal, Tax and Finance.

Jul 2019 - Feb 2020

Senior Consultant · *Mindfields*

Specialist consulting in process improvement, governance and intelligent automation for large enterprise clients.

- Managed a large scale UiPath RPA implementation for a major WA mining company, delivering 6 automated processes across Finance, HR, Safety and Tax.
- Led end to end delivery: process assessment, business case development, solution architecture, UAT and post production validation.

Jan 2017 - Jun 2019

Consultant, People Advisory Services · *EY*

Data analytics and process improvement across payroll, workforce planning and HR compliance for ASX listed clients.

- Delivered hire to retire process reviews and workforce analytics, identifying compliance gaps and remediation opportunities across multiple ASX listed clients.

EARLIER Research Assistant, Curtin University (2015 to 2016) · Sports Coach, Wesley and Penrhos (2014 to 2016)

03 *Selected projects*

AUSTRALIAN UNIVERSITY — 2026

Finance & payroll controls monitoring

Standing continuous controls monitoring across finance processes, decision-useful by design

SQL · Power BI · Microsoft Fabric · Microsoft Azure · GitHub · GitHub Copilot

UNIFIED HONEY — 2025

Snowflake Native App

Led go-to-market strategy and positioning for a Snowflake Native App selected into the Snowflake Startup Accelerator, and contributed to its data governance framework design.

Snowflake · SQL · Python · GitHub

TOP-10 ASX GOLD PRODUCER — 2024

Payroll monitoring (Snowflake + Power BI)

Established repeatable monitoring across heterogeneous source systems

Power BI · SQL · Snowflake · SAP ECP · SAP SuccessFactors · Pronto

GLOBAL ENGINEERING AND PROFESSIONAL SERVICES FIRM — 2024

Data quality and governance review

Led a data quality and governance review across a global enterprise, the largest of its type undertaken there.

Microsoft Purview

GLOBAL ENGINEERING AND PROFESSIONAL SERVICES FIRM — 2024

Global internal audit digital capability

Led digital capability for a global internal audit function spanning 100+ countries and 50+ audits a year, defining the digital strategy and embedding analytics into audit delivery.

VIA · Power BI · SQL · Alteryx

TIER 1 IRON ORE PRODUCER — 2022

Payroll continuous controls monitoring

Provided ongoing assurance over payroll accuracy and compliance

SAP ECP · SAP SuccessFactors · SAP Analytics Cloud · Power BI

TIER 1 IRON ORE PRODUCER — 2020

UiPath RPA implementation

Six processes automated with sustained post-production performance

UiPath · SAP ECP · SAP HCM · SAP FI · SAP SuccessFactors

2020

Superannuation compliance reviews

Led superannuation compliance reviews across more than 20 large Australian employers, testing against legislation, enterprise agreements and contracts, and supporting remediation with the ATO.

Microsoft Excel · Alteryx · Power BI · Tableau

GLOBAL DIVERSIFIED MINER — 2019

Payroll compliance analytics

Discrete reviews grown into an embedded analytics partnership; compliance exposures identified and remediated across multiple award and EBA scenarios

SAP HCM · SAP SuccessFactors · SAP ECP · Power BI · SQL · Alteryx · Microsoft Azure

NATIONAL HOME CARE AND HEALTH PROVIDER

Workforce analytics partnership

Sustained 5+ year client relationship; ongoing compliance assurance across complex healthcare rosters

SAP HCM · SAP SuccessFactors · Kronos
